

## **PHONE CALL EVIDENCE from Dr David Matas**

In ETAC's response to the Aust Inquiry report, Dr David Matas mentions this Chinese television program where they accuse David Matas and David Kilgour of fiddling with the transcript of the call. (perhaps not realising there was also an audio)

Link and timecode for the film "Human Harvest" is below.

By doing this they are actually admitting to the call having taken place and it would be impossible to make the changes to the call that the Chinese suggest were made.

Full segment on phone call investigations timecode: 21:57 to 27:55

Segment with footage of Chinese Television program 25:00 to 27:55
