

SUBMISSION OF WORLD ORGANIZATION TO INVESTIGATE THE PERSECUTION OF FALUN GONG (WOIPFG)

Testifying: Dr. Zhiyuan Wang, President and spokesperson of WOIPFG

- Evidence of the Chinese Communist Party's State Crime of Live Organ Harvesting an Enormous Number of Falun Gong Practitioners

Dr. Zhiyuan Wang, M.D., President of WOIPFG

Thank you for this opportunity to submit our evidence to the tribunal.

World Organization to Investigate the Persecution of Falun Gong (WOIPFG) was founded on January 20, 2003. It is based in New York and has branches in Europe, Australia, Asia and Canada. Our mission is to investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong and to restore and uphold justice in society.

Introduction

After the Chinese Communist Party's (CCP) crime of harvesting organs from living Falun Gong practitioners was exposed in the international community on March 9, 2006, WOIPFG launched a systematic investigation targeting mainland China, which has been ongoing over the past more than one decade. We have collected evidence from five standing committee members of the CCP Central Politburo, a vice chairman of the Central Military Commission, a committee member of the Central Politburo, a defense minister, a former health minister of the General Logistics Department of the People's Liberation Army (PLA) and 9,519 doctors. At the same time, tens of thousands of media reports, more than 3,000 medical papers, cached hospital webpages and databases of these 891 hospitals have been combed through and analyzed. Our findings are also based on telephone investigation recordings, of which we have published more than 500.

Our investigation has proven that, after July 20, 1999, on the order of its then-leader Jiang Zemin, the CCP started manipulating China's entire state apparatus to carry out a genocidal slaughter against Falun Dafa practitioners by harvesting their organs alive for transplants across the entire country. This extremely brutal persecution has been ongoing to this day, and it is a state-sanctioned crime against humanity.

Research Results with Supporting Evidence

I. People have Indicated that Jiang Zemin Directly Ordered the Use of Falun Dafa Practitioners' Organs for Transplants

Evidence 1: Investigative Phone Recording of Bai Shuzhong, former health minister of the General Logistics Department of the People's Liberation Army

http://www.zhuichaguoji.org/sites/default/files/investigation_report/2014/09/44818_baishuzhong10sep-2-final-mp3.mp3

See **Appendix 1** for more transcripts.

WOIPFG Investigator: When you were the head of the health division for the PLA General Logistics Department, regarding taking organs from detained Falun Gong people for organ transplantation, was it an order from Wang Ke, the then-director of the PLA General Logistics Department? Or did it directly come from the Central Military Commission?

Bai: Back then it was Chairman Jiang. There was an order, a sort of instruction, which said to carry out such things, organ transplantation. That is to say, it was not just the military that was doing kidney transplants.

WOIPFG Investigator: We also obtained some intelligence, that is to say back then, the Joint Logistics Departments of the Military Regions had detained a number of Falun Gong people as live donors, is that true?

Bai: This, this is back then, ah, I think, at least this is how I remembered, because back then after Chairman Jiang issued the order, we all did a lot of work against the Falun Gong practitioners. Because Jiang paid a lot of attention to this matter back then, and put a lot of emphasis on this matter.

Evidence 2: Investigation Phone Recording of Bo Xilai, then-Minister of Commerce in China
http://www.zhuichaguoji.org/sites/default/files/files/report/2015/06/48095_du_jia_lu_yin_bo_xi_lai_zi_pu_jiang_ze_min_ling_huo_zhai_fa_lun_gong_xue_yuan_qi_guan_.mp3

See **Appendix 2** for more transcripts.

WOIPFG Investigator (Pretending to be a secretary at the Chinese Embassy in Berlin): When you were the governor of Liaoning Province, ...that is to say, regarding the matter of live organ harvesting of Falun Gong (practitioners), was that your order or Jiang Zemin's order?

Bo Xilai: President Jiang's!

II. There exists an enormous living organ donor pool in China

WOIPFG has gathered several types of evidence to support this conclusion: the wait times for donor organs in many hospitals are extremely short; there are a surprising number of emergency organ transplants; there are cases of multiple organ transplant operations taking place simultaneously; the warm ischemia times are extremely short; and living human beings have been used for spare organs. In addition, detained Falun Dafa practitioners have been forced to go through blood tests, while suffering from physical and mental abuse, but they were never informed of the test results.

1. China's Organ Transplant Industry Experienced an Explosive Growth Since 1999

Evidence 3: Annual national liver transplant surgery figures showed an increase of 180 times between 1999 and 2006

In the more than two decades leading up to 1999, only 135 liver transplant cases were performed in mainland China, averaging 5 to 6 cases per year. During the 8-year period from 1991 to 1998, Chinese hospitals performed a total of 78 liver transplant surgeries, averaging 9.7 cases per year. By contrast during the 8 years from 1999 to 2006, an astronomical 14,085 liver transplant surgeries were carried out in mainland China, an average of 1,760 cases per year. This was a 180-fold increase in liver transplant surgeries, coinciding with the persecution of Falun Gong. Over almost 18 months, from January 1, 2005, to June 24, 2006, at least 5,644 liver transplants were carried out in China¹.

Evidence 4: 2007 annual liver transplantation quantities has increased 436 times

People cannot imagine: After the crime of organ harvesting from living Falun Gong practitioners was exposed in 2006, at a time when the CCP was under close scrutiny from the international community, China conducted at least 4,231 liver transplant operations between June 24, 2006, and June 24, 2007². This was 436 times the average number of liver transplant surgeries from the period 1991-1998.

Evidence 5: The percentage of emergency liver transplants is as high as 26.6% of all liver transplants

According to data from *The 2006 Annual Report on China Liver Transplant Registration*³, 8,486 cases of liver transplants were performed in 29 transplant centers from April 6, 2005, through December 31, 2006. Of these, 4,331 cases had specified whether or not the case was an emergency transplant, indicating a total of 1,150 emergency liver transplantations performed, or 26.6% of those cases. One patient received a liver transplant operation only four hours after being hospitalized. This was the fastest transplantation recorded in the data set.

Evidence 6: Huang Jiefu performing a transplant operation with four spare livers, three of them from living persons

According to articles from official state-run media www.xinhuanet.com reprinting from www.xjbs.com.cn, www.sina.com reprinting from *Urumpi Evening News*, *Today's Nurse Periodical*⁴ and *Phoenix Weekly*, on September 28, 2005, the then-Vice Minister of Health Huang Jiefu accompanied Luo Gan, the then-Secretary of the CCP's Central Political and Legal Affairs Commission, to attend the 50th anniversary celebration of the establishment of Xinjiang Uyghur Autonomous Region, where he demonstrated an autologous liver transplantation surgery at the First Affiliated Hospital of Xinjiang Medical University. Huang used three backup donor livers for his surgery, and it is analyzed that the three donor livers are suspected of three living persons.

See **Appendix 3** for more details.

Evidence 7: Many hospitals conduct multiple transplant operations at the same time. In one hospital, 24 liver and kidney transplants were conducted in one day

- 1) Xinqiao Hospital of Third Military Medical University once performed 24 kidney transplant operations in one day⁵.
- 2) Tianjin First Central Hospital once performed 24 liver and kidney transplant operations in one day⁶.
- 3) The First Affiliated Hospital of Sun Yat-Sen University performed 19 kidney transplant operations in one day.⁷

See **Appendix 4** for a list of hospitals that have performed transplant surgeries in batches.

Evidence 8: Investigation Phone Recording on Dr. Chen Yongfeng

http://www.zhuichaguoji.org/sites/default/files/report/2015/50795_1-1..-zheng_ju_xu_hao_63-2015_06_26_zheng_zhou_shi_ren_min_yi_yuan_gan_yi_zhi_chen_yong_feng_-_ke_yi_tiao_ge_nian_qing_de_-pub-2-k.mp3

See **Appendix 5** for more transcripts.

On June 26, 2015, (8613623711903), Dr. Chen Yongfeng from the Organ Transplant Department at Zhengzhou People’s Hospital told a WOIPFG investigator that they have plenty of donors, **“We can select a good and relatively young liver. We have plenty of donors, so we can still select the ones that are young and good.** It is hard to say if that will be the case down the road.”

Evidence 9: Investigative Phone Recording on Director Wang, Coordinator for kidney transplant operations at Yantai Yuhuangding Hospital, Shandong Province

Phone number: +86+ 13181994782 Date: May 26, 2017

https://www.zhuichaguoji.org/sites/default/files/report/2017/07/72524_investigation_report_1500066592_93.mp3

See **Appendix 6** for more transcripts

Excerpts: To wait for the kidney source and for the operation, “including the physical examination, it will be within half a month, within two weeks.” “Even for half a month, or even two weeks, the estimates are on the long side.” “We ask for 400,000 yuan, and [you] give the hospital [another]100,000 yuan.” “You need to find the [donors] under 30 years old. You get what you pay for, understand?”

Evidence 10: Investigative Phone Recording on Director Wang, Coordinator for kidney transplant operations at Yantai Yuhuangding Hospital, Shandong Province

Phone number: +86+ 13181994782 Date: June 10, 2017

https://www.zhuichaguoji.org/sites/default/files/report/2017/07/72524_investigation_report_1500066592_94.mp3

See **Appendix 7** for more transcripts

(Waiting time for kidney transplant) “It won’t take long, ten days.” (Question: Where do the donors come from?) “We have our own channels. You don’t have to ask.” (Question: Taken from national organ network?) “That’s all deceiving people. They are all formalities.” (Question: Is that website accessible with an ID?) “It is inaccessible. It belongs to the armed police. It’s not like that anyone can access it.”

2. Live Humans’ Organs have been Put on Sale, or Even Given out as Free Gifts

Evidence 11: Hunan People’s Hospital offer 20 free liver and kidney transplants

On April 28, 2006, Hunan People’s Hospital advertised that the hospital is offering 20 free liver and kidney transplants, 10 liver transplants and 10 kidney transplants,⁸ suggesting a large number of organs needed to be used immediately.

Evidence 12: Another advertisement of free liver transplantation came into sight in China in 2017.

From June 1 to June 30, 2017, Jilin Provincial Travel Radio and the Hepatic Transplantation Center of the First Hospital of Jilin University jointly launch a program of free liver transplantation for 10 children.⁹

III. Direct evidence showing that Falun Dafa practitioners have been live organ harvested

Evidence 13: Investigative Phone Recording on an Armed Police Officer from Jinzhou City in Liaoning Province, who Witnessed Live Organ Harvesting

On April 9, 2002, in a surgery room on the 15th floor of the General Hospital of Shenyang Military Region, an armed guard witnessed the entire process of organ harvesting. According to

his testimony, he observed two military doctors extract organs from a female Falun Gong practitioner without administering any anesthesia. The Military Identification No. of one of the doctors is 0106069. The victim was a middle school teacher in her thirties. Before the doctors killed her, she had been subjected to a month of severe torture, molestation and rape.

<http://www.zhuichaguoji.org/sites/default/files/201709/090402002liaoningwujing.mp3>

Investigator: You have not told me the time.

Witness: April 9th, 2002.

Investigator: April 9th?

Witness: Yes, the operation started at 5 pm on April 9th.

It lasted for three hours.

Witness: Prior to that time, we had been interrogating and torturing her for about a week.

She already had countless wounds on her body.

Also, [we] used electric batons to beat her.

She had already become delirious.

See **Appendix 8** for more transcripts.

Evidence 14: Investigative Phone Recording on Chen Qiang, a kidney broker who worked for the transplant division of the PLA No. 307 Hospital in Beijing

http://www.zhuichaguoji.org/sites/default/files/files/report/2013/09/35848_2-chenqiang-307-new-edited.mp3

See **Appendix 9** for more transcripts.

WOIPFG Investigator: You may know, a couple of years ago, because Falun Gong practitioners, who petitioned didn't disclose their names, they were secretly detained.

Chen Qiang: The ones without names would be assigned code numbers. Anyone like this, only code numbers, I...

WOIPFG Investigator: For this, how could you be so sure that he (the organ source) was a Falun Gong practitioner?

Chen Qiang: How to positively identify a Falun Gong practitioner, well, when the time comes --- when the time comes, then on our side, our higher-ups will have people show you some documents, you know. He will show you the information and data.

Evidence 14: Investigative Phone Recording on a policeman from Intermediate People's Court of Jinzhou

http://www.zhuichaguoji.org/sites/default/files/files/report/2013/09/35848_3-jinzhou.mp3

See **Appendix 10** for more transcripts

A court officer from the first division of criminal law at the Intermediate People's Court of Jinzhou stated clearly, "If the conditions (referring to the prices) are good, we can provide organs of Falun Gong practitioners."

Evidence 15: Investigative Phone Recording on Zhu Jiabin, the head of the general department of the 610 Office in Mudanjiang, Heilongjiang Province

http://www.zhuichaguoji.org/sites/default/files/report/2016/07/67047_1.1.gao_xi_bei_huo_zhai_lu_yin_zheng_ju_--610zhu_jia_bin_qin_kou_cheng_r_en__edited-2.mp3

See **Appendix 11** for more transcripts

WOIPFG Investigator: You carved out his organs, and (you think) you can get away with it? Zhu Jiabin... (the Victim was Falun Gong practitioner Gao Yixi)

Zhu Jiabin: Sold them!

WOIPFG Investigator: Ah?

Zhu Jiabin: All sold, they were all sold.

Zhu Jiabin: If you appeared in front of me, I would also live organ harvest you, do you believe it or not?

Evidence 16: Investigative Phone Recording on Dr. Lu Guoping of Guangxi National Hospital

http://www.zhuichaguoji.org/sites/default/files/files/report/2013/09/35848_9--guangximinzuyiyuan.mp3

See **Appendix 12** for more transcripts

In 2008, the Chinese embassy in Canada released a TV program produced by a Hong Kong Satellite TV in an attempt to deny the charges of live organ harvesting from Falun Gong practitioners.

In the program, Doctor Lu Guoping of Guangxi National Hospital's Urology Department admitted that he was the person who answered a phone call from a WOIPFG investigator on May 22, 2006, but denied the things he had said. However, Lu Guoping speaks with a distinct stutter and accent, and the phone interview is more than 30 minutes long. It couldn't have been fabricated. So, CCP's video which intended to disprove the phone recording turned out to be an implicating piece of evidence.

Part of the investigation recording of Guangxi National Hospital doctor Lu Guoping:

Investigator: "Do you think they can find a donor body from Falun Gong (practitioners) for me?"

Lu: "If you go there it shouldn't be a problem at all."

Investigator: "They can find it?"

Lu: "I can tell you, it's an easy job for them to get organs."

Investigator: “Easy job?”

Lu: “Since they do seven or eight liver transplants a week, they can do over ten kidney transplants a week. Every month they do dozens of transplants. So they don’t worry about getting organs.”

Investigator: “Did your schoolmates tell you that they used organs from Falun Gong practitioners, did he?”

Lu: “Some are from Falun Gong (practitioners), some are donors from family.”

Evidence 17: Investigative Phone Recording on Zhang Gaoli, current Member of Politburo Standing Committee

http://www.zhuichaguoji.org/sites/default/files/files/report/2015/06/48177_untitled_11_39_am_wednesday_24_june_2015-12-edted-edited.mp3

See **Appendix 13** for more transcripts

On June 24, 2015, while Zhang Gaoli was on an official visit to Kazakhstan, a WOIPFG investigator, disguised as a secretary working for Jiang, phoned Zhang Gaoli¹⁰. When asked about Falun Gong practitioners filing lawsuits against Jiang Zemin for harvesting organs from millions of practitioners, Zhang did not deny the allegation at all. Instead, Zhang eagerly promised, “I will definitely ... prevent this matter from being pursued at the Politburo’s meeting.”

Evidence 18: Top surgeons from all over the country—from organ transplant centers in Beijing and Tianjin to those in Shanghai, Wuha, Guangdong, and Guangxi—clearly admit that Falun Gong practitioners were used as organ donors and guarantee that, in most cases, they can arrange the transplant within one or two weeks.

See **Appendix 14** for a List of Hospitals that Admitted Using Falun Gong Practitioners’ Organs in Phone Recordings

IV. Latest Evidence to Prove Falun Gong Practitioners Are Still Being Live Organ Harvested

From October 19 to November 16, 2018, WOIPFG conducted a series of phone investigations on some key hospitals and their presidents or directors, which have been involved in the CCP’s live organ harvesting from Falun Gong practitioners.

The investigation results indicate: These hospitals and doctors on the investigation lists of the WOIPFG have not stopped, and they continue harvesting organs from living Falun Gong practitioners. In response to the question “Are you still using organs from Falun Gong practitioners?” 10 investigated individuals (from nine hospitals) gave affirmative answers: “Okay, okay”, “right, right, right”, “right, right, correct, correct, you are right”, “right, right, right, ah”, “Right, this is for sure”, “No problem”, “Let’s discuss after you come”. Although other responses were vague, none of them denied the use of Falun Gong practitioners’ organs.

The 16 telephone investigations published in this report involve 12 hospitals in major cities of 11 provinces and central government direct-controlled municipalities.

The individuals investigated are all presidents or directors of top-level organ transplant hospitals in China. Many are responsible for state-level projects in the field of organ transplantation, as well as national and provincial level technical experts. Some are even in charge of organizations dedicated to persecute Falun Gong, such as Zheng Shusen.

(Audio recordings and transcripts of Evidences 19 to 27 will be submitted to the tribunal at a later date.)

Evidence 19: Investigative Phone Recording on Chen Xinguo, Director of Liver Transplantation at Beijing Armed Police General Hospital (+13701220662) on October 19, 2018

Summary of investigation results: “At the end of the month, it should be ready.”

Investigator: We can't use the ones that underwent tortures or hunger strikes. This [type of organs] is not the best. It is better to have them in the normal state. Those who do the practice would be the best.

Chen Xinguo: Don't worry, we have done a lot, I will check it for you, ah!

Investigator: Especially the ones that practice Falun Gong, they would be the best.

Chen Xinguo: Okay! Okay!

Personal profile: Chief Physician (liver transplant), Master's degree students' supervisor, member of the Standing Committee of the Organ Transplantation Committee of the Beijing Medical Association, member of the Organ Transplantation Expert Committee of the Beijing Medical Association, member of the Standing Committee of the Organ Transplantation Committee of the China Research Hospital Society, and member of the Cardiopulmonary Resuscitation Committee of the China Research Hospital Society. In 2002, Chen Xinguo was performing clinical work in the area of liver transplantation, and he has assisted more than 10 units in Beijing and other places to carry out liver transplant operations.

Evidence 20: Investigative Phone Recording on Wang Jianli, Associate Chief Physician of the of Organ Transplant Institute, Beijing Armed Police General Hospital (13911723417), on November 2, 2018

Summary of investigation results: “Not sure when that can be ready, but we have a lot of organs here! A surgery can be arranged within one or two weeks. (Investigator: are the organs you are using now the healthy organs from Falun Gong practitioners, normal donors, right?) Right, right, right. (A liver transplant) can be done with 200,000 or 300,000 (yuan).

Personal profile: Associate Chief Physician of the of Organ Transplant Institute, Beijing Armed Police General Hospital. He is currently the leader of the Liver Transplant and Kidney Transplantation Team at the Liver Transplant Institute of the Armed Police General Hospital.

Evidence 21: Investigative Phone Recording on Zheng Shusen, President of Shulan (Hangzhou) Hospital (13805749805) on November 3, 2018

Summary of investigation results: Zheng did not answer the question of “whether or not the organs are from Falun Gong practitioners”, but he did not deny it, either.

Personal Profile: Zheng Shusen, member of the CCP, former president of the First Affiliated Hospital, School of Medicine, Zhejiang University, currently the president of Shulan (Hangzhou) Hospital and the director at the transplant center of the First Affiliated Hospital, School of Medicine, Zhejiang University, former chairman of the Chinese Transplant Congress (CTC) and chairman of China Organ Procurement Organization Alliance, was also the chairman (from 2007 to 2017) of the Zhejiang branch of “China Anti-cult Association” (CACA), which is one of the Chinese Communist Party’s (CCP) important agencies against Falun Gong.

Evidence 22: Investigative Phone Recording on Lang Ren, Director of Department of Liver Transplantation, Beijing Chaoyang Hospital (+86-13911757869) on November 6, 2018

Summary of investigation results: “If everything goes well, it can be two or three weeks.” Investigator: The donors, are the type of Falun Gong practitioners, that kind of normal healthy donors, right? Lang Ren: Right, right, correct, correct, you are right.

Personal Profile: Chief Physician, Associate Professor, Master’s degree students’ supervisor. He served as the editorial board member of the “*Chinese Journal of Hepatobiliary Surgery*” and member of the Beijing Medical Association’s Enteral Nutrition Committee. Since 1999, he has been participating in clinical work and basic research on liver transplantation.

Evidence 23: Investigative Phone Recording on Qu Qingshan: Director of the Organ Transplantation Center of Zhengzhou People’s Hospital (13703717386) on November 6, 2018

Summary of investigation results: (Investigator: Another thing is, the donors you are using now, are still the normal donors of Falun Gong practitioners, right?) Yes, all of them are in the normal state.

Personal Profile: Qu Qingshan, chief physician, professor, Master’s degree students’ supervisor. He is Director of Zhengzhou Human Organ Transplantation Center, a current member of the Organ Transplantation Branch of the Chinese Medical Association; a member of the Organ Transplantation Physician Branch of the Chinese Medical Association; a Standing Committee Member of the Organ Donation and Acquisition Management Committee of the Chinese Medical Association; a Standing Committee Member of the Dialysis Transplant Branch of the Chinese Biomedical Engineering Society; and the Member of the Kidney Transplantation Branch of the China Healthcare International Exchange Promotion Association Standing Committee; Deputy Director of the Organ Transplantation Branch of the Henan Medical Association.

Evidence 24: Investigative Phone Recording on Miao Shuzhai, Chief Physician of the Organ Transplantation Center of Zhengzhou People’s Hospital (13938277351) on November 6, 2018

Summary of investigation results: Arranging for a liver transplant surgery usually takes one or two weeks to one month. Investigator: And regarding your current donors, your donors are that type of normal donors (that practice) Falun Gong, right? Miao Shuzhai: Right, right, right.

Personal Profile: Chief physician, graduated from Henan Medical University.

Evidence 25: Investigative Phone Recording on Hang Hualian, Chief Medical Officer of Liver Transplantation Surgery Department, Shanghai Renji Hospital (18616206806) on November 17, 2018

Summary of investigation results: I'll try my best to get it for you within one week.

Investigator: You are using Falun Gong (practitioner) donors now, right?

Hang Hualian: Yes, this is for sure.

Personal Profile: Deputy Chief Physician, Associate Professor, Master's degree students' supervisor at the Department of Liver Surgery, Liver Transplantation Center, Renji Hospital, affiliated with Shanghai Jiao Tong University School of Medicine. Member of the Transplant Surgery Technical Committee of the Organ Transplantation Physician Branch of the Chinese Medical Association, member of the Stem Cell and Tissue Transplantation Committee of the Organ Transplantation Physician Branch of the Chinese Medical Association, member of the Hepatobiliary and Pancreatic Surgery Committee of the Cross-Strait Medical and Health Exchange Association, and the chief examiner of the National Practitioner Examination.

Evidence 26: Investigative Phone Recording on Bai Rongsheng: Liver Transplant Doctor and Assistant to President Shen Zhongyang at Tianjin First Central Hospital (13803019898) on November 15, 2018

Summary of investigation results: (Investigator: Regarding liver donors, the situation now is that in general they are the type of healthy donors, right? The kind from Falun Gong practitioners, right?) Right, right, right, ah.

Personal Profile: Shen Zhongyang, Director of the Liver Transplantation Research Institute of the Third Medical Center of the People's Liberation Army General Hospital (formerly the Armed Police Force General Hospital); Director of the Oriental Organ Transplantation Center (Tianjin), chief physician, professor and PhD students' supervisor.

Evidence 27: Investigative Phone Recording on He Xiaoshun: Vice President of the First Affiliated Hospital of Sun Yat-sen University (13802510799) on November 16, 2018

Summary of investigation results: Investigator: Your skills are good, another thing is about the organs. The organs that you're using, I know that they're from Falun Gong practitioners, and the organs themselves are good. So, combining both aspects, (the results) are very good.

He Xiaoshun: Right.

Personal Profile: He is currently the deputy president of the First Affiliated Hospital of Sun Yat-sen University, a leader of organ transplantation, professor, PhD students' supervisor. He is also a member of the International Society of Liver Transplantation, member of the International Society of Digestive Surgery, expert member of the Clinical Application Committee of the

Human Organ Transplantation of the Ministry of Health, member of the Organ Transplantation Branch of the Chinese Medical Association, member of the Chinese Medical Association Surgery Branch, vice chairman of the Guangdong Provincial Liver Disease Society, and Chairman of the Organ Transplantation Professional Committee.

V. The CCP's Claim that after January 2015, all Transplant Organs Come from Voluntary Donation is a Lie

In view of the fact that the Chinese Communist regime announced that starting from January 1, 2015, China would end the practice of using organs from executed prisoners in organ transplants, voluntary donation from Chinese citizens would be the only legal source of human organs for transplants, and China Human Organ Donation Administrative Office at the Red Cross Society of China (RCSC) is the official organization responsible for overseeing organ donations in China and it's led by the State Council;

In view of the fact that since 2015, the number of organ transplants in China has been increasing, instead of decreasing, year over year. According to evidence collected WOIPFG, organ transplants in Communist China experienced an explosive growth after year 2000. More than 891 hospitals have participated in organ transplantation.

In view of the fact that Beijing is China's capital and has the largest number of organ transplant hospitals (according to the latest list of 178 organ transplant hospitals published by the National Health and Family Planning Commission, there are 23 such hospitals in Beijing), as well as the largest organ transplant volume (for example, Peking University People's Hospital self-claimed that that it had performed more than 4,000 liver and kidney transplant operations in one year)

Therefore, WOIPFG conducted a phone investigation from August to September 2018 on the state of human organ donations at Red Cross Society of China, Beijing Branch (hereafter referred to as "Beijing Red Cross").

Our investigation results: After the Beijing Red Cross Organ Donation Office, which is located in China's capital, was established six years ago, it is still in the preparatory stage, and it has never started any actual organ donation work. Its subordinate district-level Red Cross Societies haven't set up their organ donation offices yet and have not started any actual organ donation operations. And their functions have been merely limited to some publicity work.

Evidence 28: Investigative Phone Recording on Wang Zhaohui, Director of the Organ Donation Preparation Office at Beijing Red Cross (18910670191) on September 6, 2018

https://www.zhuichaguoji.org/sites/default/files/mp3/2018/10/105788_1540301566.mp3

See **Appendix 15** for more transcripts

Wang Zhaohui: "I am in the preparatory office. The organ donation office has not yet been established by now. Now it is our Red Cross Society, now the National Health and Family Planning Commission, we have not cooperated together. That is, the hospitals usually do it themselves. Our situation is quite special, so we have not yet started this work. Now the state is... the next step is to see how to handle it, I don't know how to put it!"

Evidence 29: Investigative Phone Recording on an officer-on-duty at Red Cross Society of Haidian District, Beijing (Tel: 86+10-68317551) on August 31, 2018

https://www.zhuichaguoji.org/sites/default/files/mp3/2018/10/105788_1540070026_0.mp3

See **Appendix 16** for more transcripts

Officer-on-duty: “The organ donation work in Beijing is still in the preparatory stage (and it was established six years ago). And this department has just been set up for them this year. Since the municipal society hasn’t implemented it, it is even more impossible to carry it out on the district-level! Our district is mainly undertaking the propaganda work for organ donation from the deceased, and other work has not been implemented.”

See WOIPFG’s Investigation Report: Beijing Red Cross Has Never Started Its Organ Donation Program as of Now for more details: <http://www.upholdjustice.org/node/402>

VI. Evidence of Live Organ Harvesting Found in Medical Papers

Evidence 30: Two Cases of Combined Cardiopulmonary Resection

Medical paper published by Wu Jian and other physicians from Yan’an Hospital of Kunming describes the procedure of a heart extraction from a living person.

See **Appendix 17** for details

Evidence 31: 100 cases of lung harvesting for lung transplantation

“The first person of Chinese lung transplantation” Zhenxing Wang, Jingyu Chen, Mingfeng Zheng, Shugao Ye, Feng Liu, Ruo Chen, Guorong Lu, and Dong Wei wrote a paper titled “100 cases of lung harvesting for lung transplantation: Effect of cold ischemia time > 6 hours and lung volume reduction on prognosis.”¹¹

See **Appendix 18** for details
