Investigative Phone Recording on Zhang Gaoli, current Member of Politburo Standing Committee

On June 24, 2015, an investigator with World Organization to Investigate the Persecution of Falun Gong (WOIPFG), by assuming the identity of a secretary at Jiang Zemin's Office, conducted a phone investigation on the CCP's State Council Vice Premier Zhang Gaoli, who was on a visit in Kazakhstan, regarding Jiang Zemin's crime of issuing orders to harvest millions of live Falun Dafa practitioners' organs.

The investigation results show that:

I. As one of the incumbent Politburo Standing Committee members and Vice Premier, Zhang Gaoli did not deny nor show any surprise when asked by the investigator about Jiang Zemin's order to remove organs from several million Falun Gong practitioners. In addition, when asked by Jiang to prevent pursuit of the matter at the Politburo meeting, Zhang promised that he "definitely will" and asked Jiang "not to worry."

This further confirms: It was Jiang Zemin who ordered the removal of organs from living Falun Gong practitioners, and the number is as large as several million. The most senior level of the CCP is fully aware of this. Zhang Gaoli is also one of the main culprits in the organ harvesting.

II. Zhang Gaoli promised that he would handle the rest of the Falun Gong practitioners as well. This confirms that the living organ bank composed of a large number of detained Falun Dafa practitioners still exists today. Falun Dafa practitioners are in danger of having their organs removed at any time.

III. Zhang Gaoli's remarks also showed that Falun Dafa practitioners prosecuting Jiang Zemin inside and outside of China have put considerable pressure on the CCP leadership. Zhang Gaoli, as Jiang Zemin's loyal servant, is actively using his power to cover up the crimes, in order to protect the remnants of Jiang's faction.

Here is part of the investigation audio.
